Bechtle Climate Protection Strategy 2030 – Avoidance. Reduction. Compensation.

Our Targets:

- We achieve climate neutrality i.e. net-zero carbon emissions, largely through reductive measures by 2030.
- We choose a three-pronged approach of avoidance, reduction and compensation with certified climate protection projects.
- The objective is to reduce scope 1 (company buildings and vehicle fleet) and scope 2 (energy procured for use in-house) emissions by 60 % each by 2030. (Base year 2019)
- Scope 3 emissions in the up- and downstream value chain are to be reduced by 30 % by 2030. (Base year 2019)
- This ambitious roadmap aligns with the reduction targets of the Science Based Target Initiative (SBTI).

Focal Points:

Energy.

- Increasing energy efficiency at our sites
- Generating our own electricity, use of geothermal energy
- Purchase of green electricity

Mobility.

- Sustainable fleet strategy
- Intensification of alternative drives
- Environmentally friendly travel and commuting

Procurement.

- Sustainable purchasing strategy
- Close cooperation with suppliers

Logistics.

 Climate-friendly logistics (packaging and transport)

Awarness.

 Raising awareness among internal and external stakeholders

5 2023 outlook.

Forecast – Digitalisation continues to drive growth.

Outlook – 2023 will be challenging. Bechtle remains optimistic.

Assumptions.

- The overall economic situation will develop better than expected just a few months ago, but growth rates will remain limited.
- I Supply bottlenecks hampering our manufacturing partners will continue to ease.
- Project business backlog will dissipate.
- We will succeed in balancing out the inflation-related increase of the cost basis.

Realistic objectives.

- Bechtle is optimistic for the current fiscal year.
 - Significant growth in terms of revenue/business volume and earnings (5% 10%).
 - EBT margin more or less on previous year's level.
