MICROSOFT 365 SECURITY WITH PERSPICUITY

Implementing Microsoft 365 services into your organisation allows you to usher in a new way of working, and allows colleagues to work from anywhere. Whilst this is great for you and your colleagues, and will have supported you through the pandemic, this brings with it a whole new set of security issues around how you protect your organisation from outside threats to your services that are available from anywhere in the world.

Why Microsoft 365 Security ?

In partnership with Perspicuity, we will work with you to explore your requirements and identify the right Microsoft 365 licensing suitable to your scenarios and pain points. We will explore how the elements within the EMS and Microsoft 365 licensing suites can help to protect your Office 365 services, maintain end user experience and aid in embracing a Hybrid work culture.

- ✔ Conditional Access
- ✔ Zero Trust Methodology
- ✔ Hybrid Identity Model
- ✔ Microsoft Information Protection
- ✔ Microsoft Endpoint Manager
- ✔ Windows 10 Deployment

Just beginning your Microsoft Teams journey? Already up and running and need help with scalability? Learn more about Perspicuity's other services for Microsoft Teams or 'Teams Governance' by speaking to your account manager.

At a Glance

An insight into the Security Features available within the Microsoft 365 licensing suite and how to take advantage of these features to best suit your organisation's requirements.

Technologies
