SOLUTIONS SUMMIT

A STORY ABOUT THE MULTIVERSE

and how to be in the right dimension!

BECHTLE

Jeroen Huylebroeck
Cloud Consultant // Bechtle

WHAT IS THE MULTIVERSE?

- Not talking about the metaverse here
- It is part of quantum mechanics and string theory
- Dates back to the Greek (600 BC), the idea of infinite worlds

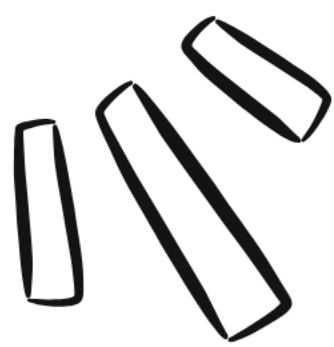

HOW DID I GET TO KNOW THE MULTIVERSE?

- Through comic books! The “Marvel Universe” is part of the “Marvel Multiverse”
- Loads of similarities, with the same hierarchies
- Often a new universe is split from an existing one due to an important decision by a superhero, time travel, stuff like that

BTW: there's even a Megaverse and an Omniverse

MY MULTIVERSE

THE PROTAGONISTS

- A superhero, let's call him Jeroen
- Everyday civilians
- Supporting characters:
 - Trusty butler
 - Sidekick
 - Love interest
 - ...

THE PROTAGONISTS

But also...

- A supervillain, let's call him "The Disease"
- His vile henchmen

THE CHALLENGE

THE SUPERHERO

Our superhero is doing superhero'y things to protect everyday civilians from themselves and the villain.

THE VILLAIN

The villain attacks the superhero in many different ways, trying to take him out, so the bad stuff can happen to the world and he can capitalize on it.

THE CIVILIANS

The civilians are generally good natured, but sometimes greedy, sometimes stupid.

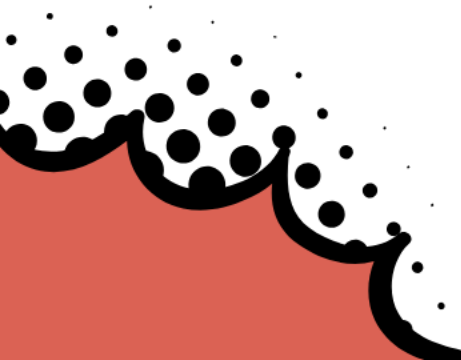

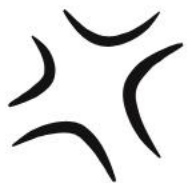

STAYING AHEAD OF "THE DISEASE"

Imagine... Two parts of the multiverse, 2 universes

#1: in which Jeroen actively studies "The Disease" and his hoodlums, spending part of his valuable time to protect himself from their sinister actions

#2: in which Jeroen doesn't waste time doing that and goes about it all the time doing more superhero'y stuff

QUESTION #1

What is best for Jeroen and the civilians at large, the first or the 2nd?

QUESTION #2

How can we make that happen?

THE ANSWERS TO JEROEN'S CHALLENGE

**TO THWART "THE DISEASE", JEROEN NEEDS TO STAY
AHEAD OF THE GAME!**

He needs to take care of everything he has! His gadgets, his power stone, his supporting characters, ...

So, he needs to know what he has, he needs to keep tabs on everything, and sometimes he needs to change things because...

He needs to make sure he knows everything "The Disease" is trying to target and how.

This way, he can make the necessary changes to himself, his environment and his supporting characters. He can also help the civilians know about what he's doing so they are reassured about their safety, and provide them with safety precautions.

DID YOU NOTICE?

Jeroen has no physical or mental superpowers... He is superfocused on doing the right thing and leveraging the right resources.

Do you know similar superheroes?

PROTAGONISTS IN YOUR MULTIVERSE

1

Superheroes:
The people in your
company

2

Villains:
Bad people from within
your company, outside
your company and an evil
supercomputer
intelligence!

3

Civilians:
The market, the
customers

THE ANSWERS TO YOUR CHALLENGE(S)

Very similar to Jeroen's challenge

- Get a grip on everything you have and use
 - Get a grip on it yourself
 - Involve specialised supporting characters (your trusty sidekick)
 - Know what the villains are going to try in the future and are already trying to do
- 

AVAILABLE SIDEKICKS

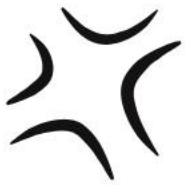

ENDPOINT CHALLENGES?

- MEMA (Modern Endpoint Management Assessment)
- [CLOUD CONTROL] - Managed Endpoint (Security) Services

SECURITY POSTURE?

- SECA (Security Assessment)
 - [CLOUD CONTROL] - Managed Detection & Response Service
-
