

Veeam Backup for Office 365.

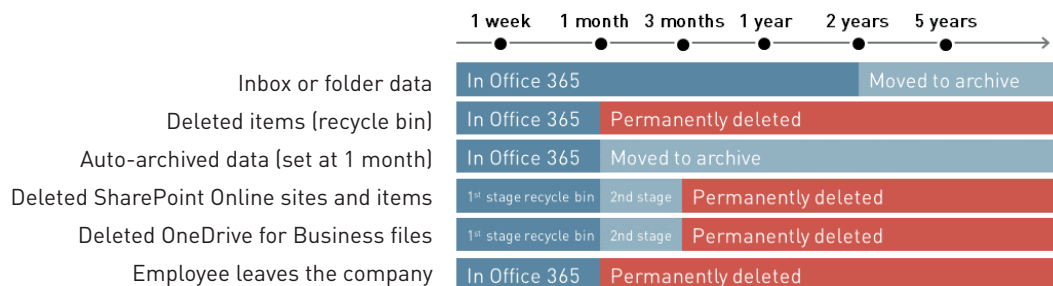

With Office 365, your data is your own. You are in control and responsible for protection.

With Office 365, Microsoft is providing a wide range of powerful services, but that doesn't include a comprehensive backup of your Office 365 data. With Veeam® Backup for Microsoft Office 365 you'll never again lose access to or control over your Exchange Online, SharePoint Online and OneDrive for Business data meaning it really is secure and always available.
