MODERN ENDPOINT MANAGEMENT ASSESSMENT

With this assessment we aim to identify pitfalls and accelerate your journey toward modern endpoint management with Microsoft Endpoint Manager Intune.

What are your benefits?

- Discover the specific necessities for your organisation's current and future fleet of endpoint devices
- Develop your roadmap from classic, GPO based management of legacy MDM/UEM solution toward Microsoft Endpoint Manager Intune
- Test drive the impact of your environment using real physical endpoints with the included pilot workshop
- Suitable for the most prevalent device types: Windows 10/11, MacOS, iOS, and Android
- Up to 90% reduction in lead time over in-house assessment and piloting
